Bill reported on the status of the Chinese 2+ 1 program. At this time neither side is prepared to proceed. The discussion may continue at a future date.

Eileen presented the 2015-2016 NCCC Program of Studies. There are a few new courses being offered this coming year including Mechatronics and Robotics 2. The two teachers for this course will receive training this summer to become qualified to offer students a level one Siemens Mechatronics Certification. There are also some PTF courses that will not be offered next year due to a lack of teachers.

Anita discussed the courses offered at the High School and the complexity of designing a schedule for each individual. The process begins in January with teacher recommendations and allows for input from parents, the student and their guidance counselor. Anita stated that this is a giant puzzle that is student driven with an effort to match course scheduling with class size. Possible new courses offerings for 2015-2016 include ACA Physics, Recreation for Life, Rock Band 101 and others.

Date of next meeting: December 2, 2014 at 5:30.

Adjourn at 6:15
